

HIGH-CAPACITY ELECTRIC CUSHION

THDE1500-4000-24 | THDE3000-4000-30

THDE1500-24 – THDE4000-30 KEY TOYOTA POINTS

- **Safety come standard:** With a high-visibility mast, careful cabin design, and a low-profile counterweight, this forklift maximizes operators' ability to safely maneuver it indoors. An Operator Presence Sensing System rounds out the features that emphasize safe operation and dependable power.
- **Easy access maintenance:** A convenient hydraulic multi-gauge makes fluid checks quick and easy. Thoughtful panel access to filters and other important components decreases time spent on maintenance and inspections.
- **Designed for durability:** Heavy duty planetary drive axles provide power and longer life of the components. A rigid-welded chassis with heavy steel cross supports reinforces stability. And rust-resistant two-layer paint keeps this forklift durable from the ground up.
- **Big-time power:** 40,000 pounds of capacity powered by 72 or 80 volts of electric power. Backed up by 17.7 horsepower AC drive motors, this machine is ready to keep inventory moving.
